

<b>Date: November 19, 2018</b>		<b>EMAIL THIS SHEET IN TO THE OFFICE AFTER YOUR MEETING!!!</b>	
Project Number#	Job Name:	Person Conducting Meeting:	

**Jobsite Inspection**

Foreman, please have one of your crew members take the inspection sheet and walk our work area. Have them look for safety/health hazards that we may be exposed to. At break time review the findings with your crew and come up with a way to abate any hazards. If a hazard has to do with the GC or another trade, request that they remove the hazard so that no one on this jobsite is injured.

**To receive credit for this week's TBT, both sides of this form need to be completed and emailed into the office.**

**Last week's Bonus Question:** What product can we order from the warehouse to minimize our slip and fall exposure?

**Answer:** If we have areas on our projects that are exposing Olympic crews to slips or falls that the GC Supt is **not** addressing, Olympic's foreman can order bags of sand from the warehouse or our vendors to abate the hazard.

Inspect your equipment (*scaffold, aerial lifts, ladders, fall protection, electrical cords, etc., etc..*) prior to the start of each work shift.

For **inspection packets or repair tags** call **Dave Sangren @ (612) 644-3136** to have some delivered to your jobsite.

Any questions give Sturg a call (612) 221-8603

PLEASE PRINT YOUR NAME

(Foreman review sheet, verify crew members names are legible)
