Project Number#	Job Name:	Person Conducting Meeting:

**Working and Walking Surfaces**

With the odd weather we have been experiencing recently, having 35 degrees one day and then dropping down to below zero the next day, is causing some slip/ fall issues on our projects. In fact, my wife took the dog for a walk this past week, slipped on some ice and hit the ground HARD. Needless to say, the city received a call from an unhappy lady. We may have some slippery areas where one of our crew members could slip and fall. We need to address these areas with our GC to abate the fall potential. If they do not address the issue, our foreman need to order up sand from our vendors to make this problem go away.

***Saying nothing to prevent someone from getting hurt is NOT acceptable!***

**Last week's Bonus Question:** How many recordable injuries did Olympic have in 2018?

**Answer:** As per the OSHA 300A form your foreman has posted on this jobsite, we had 13 recordable injuries in 2018. Our goal is to lower this number in 2019!

Inspect your equipment (scaffold, aerial lifts, ladders, fall protection, electrical cords, etc., etc..) prior to the start of each work shift.

For **inspection packets or repair tags** call **Dave Sangren @ (612) 644-3136** to have some delivered to your jobsite.

Any questions give Sturg a call (612) 221-8603

**PLEASE PRINT YOUR NAME**

**(Foreman review sheet, verify crew members names are legible)**

Comments:

**Record to beat 378 days!!!**

**As of February 7, 2019 we have worked 41 days without a Lost Time Injury.**

**We have safely worked 65,976 hours towards our ATV goal of 150,000 hours!**

Toolbox Talks winner for last week: **Chad Fore @ Dayton's, Chris Krause @ Warehouse & Baltazar Castillo-Delgado @ Carleton College**

This week's Bonus Question: **Who has been given authorization to order sand to abate icy conditions?**

Hint: **See above**
