Re: Mike Sturgesleski

Dear Tim

I wanted to personally thank you for allowing Mike Sturgesleski to be a presenter at our recent Leadership/Safety training sessions. Mike did a great job and his presentation was very well received. The continuous effort to provide a safe work environment for our workers and everyone working on our construction projects is always challenging. It is always great when we can share knowledge and resources with another firm that has a serious commitment to safety.

We really appreciate Mike's help and if we can be of service or assist your company in any way, please let me know.

Sincerely

Michael Hanson  
President  
Hunt Electric Corporation
