Safe Jobsite of the Month:

Nordic

Jobsite Spotlight

Mercy Hospital East Tower

35,000 sf. - 3" EIFS system over existing brick

GC: Knutson Construction

Olympic PM: Chris Aydt

This job was unique because Mercy Hospital remained in full operation. It was a large scaffold job that was very challenging for Luke Jeudes, Bob Harala and crew as some of the areas were very difficult to get at.

Mark Cleverly and crew had their challenges as well, but the end result was a beautiful EIFS job and very happy customers. *NICE JOB ALL!*

Thank you to everyone who contributed to the success of this job.

Healthy Living

Construction Worker Lunch Ideas

Pack Plenty of Protein. When it comes to protein, chose wisely. Cold cuts & deli meats are not the best choices due to the fact that they are high in nitrates and sodium. Unprocessed sources such as roasted chicken, smoked salmon, roast beef and soy beans are a better choice. Stuff them into Romaine lettuce leaf or if you require something more substantial, include hearty whole-grain bread or wraps.

Employee Referral Program

When you refer someone to Olympic and they fulfill the **30-day** probationary period, you receive an Olympic jacket or **\$100** cash.

If you have any friends, relatives or neighbors that have experience in drywall, residential/commercial, or are a carpenter that may be looking for a new home...

Visit: www.olympiccompanies.com/employment/minnesota

Please have them contact:
Sturg @ 612-221-8603 *or*
Lindsey @ 612-599-1107

Monthly Safety Suggestion

Topic:

Hand/Power Tools

Winner(s):

Bill Cuevas

Suggestion for safe practices of operating hand/power tools on the jobsite:

ALWAYS unplug tools before changing blades.
For cordless, remove battery.

ALWAYS inspect cords and ends.

ALWAYS look and check that guards are not missing and they're tight!

ALWAYS use tool tethers on leading edge work or when others have the potential to be working below you on a scaffold or lift.

Is the tool a silica dust creating tool? (i.e. sander, broom, hammer drill) Do we have the correct vacuum and/or bags and filters?

Tip of the Month:

Safety makes
your dreams come true.
