Date: October 1, 2018		EMAIL THIS SHEET IN TO THE OFFICE AFTER YOUR MEETING!!!
Project Number#	Job Name:	Person Conducting Meeting:

4th Quarter of the Year

OSHA states that statistically **the last 3 months** of the year are the most dangerous for those working in the construction trades. See the back side of this sheet for more information.

Last week's Bonus Question: Where is the SDS for gasoline on this project?

Answer: The Olympic Foreman went to the PlanGrid app, clicked on document and search for *gasoline*.

Inspect your equipment (*scaffold, aerial lifts, ladders, fall protection, electrical cords, etc., etc..*) prior to the start of each work shift.

For **inspection packets or repair tags** call **Dave Sangren @ (612) 644-3136** to have some delivered to your jobsite.

Any questions give Sturg a call (612) 221-8603

PLEASE PRINT YOUR NAME

(Foreman review sheet, verify crew members names are legible)

Comments:

Record to beat **378 days!!!**

As of **September 27, 2018** we have worked **11** days without a Lost Time Injury.

We have safely worked **12,816** hours towards our ATV goal of **150,000** hours!

Toolbox Talks winner for last week: **Chad Clare @ Carleton College**

This week's Bonus Question: **What product will our foremen order after our first snow fall?**

Hint: **See Foreman**

"Building a Safer Place to Work" one week at a time.

The 4th Quarter

It is documented that more construction workers get injured in the last quarter of the year than any other. Experts feel this may be due to workers having many things other than work on their mind.

Common distractions...

Kids after school activities, taking the family up north to see the leaves change, last golf outing, will the Vikings beat the Eagles on Sunday, all the hunting seasons, closing up the cabin, tuning up the snow blower & putting away the lawn mower, upcoming holidays, and whether we have enough money saved up for all the Christmas gifts for our family and friends.

All very important things, but we need to keep safety on our minds while we are working.

Our work places are constantly changing...

Mornings are darker, slippery walk-ways, cold temperatures, poly enclosures, temp lighting and temp heaters being utilized.

Thank you in advance for making it a "SAFE" fourth quarter.

Safety Committee
