Safety Committee Newsletter

Safe Jobsite of the Month:
Golden Hills

Moving into 2019...

Annual Safety Training Packets

Right To Know (R-T-K)

Our 2019 RTK packets are at the printer and due to arrive in your mailbox early January.

Along with the exam, there is an Additional Employee Information Sheet & Voluntary Use of a Respirator, which we are requesting you to complete and turn in as well. Keep a watch out!

Jobsite Awareness

Not only is it important that we implement and follow Olympics' safety procedures, but we also need to constantly be aware of our surroundings while working around other subs on our jobsites. The committee brainstormed why some of these accidents may have happened and how they could have been prevented. Here are some examples that may assist you in preventing our next injury as we move into 2019:

1. Before you begin work, discuss with your foreman how they want you to work safely.
2. Make sure you use personal protective equipment (PPE)
3. While you are working, be aware of any changes in the area – other trades coming into your work area.
4. Keep your work area clean & organized.

2018 Field Christmas Party

This year's party was so much fun!

Thank you to everyone for celebrating another successful year with us. Merry Christmas!

Please help Olympic Companies continue
"Building a Safer Place to Work"!

Monthly Safety Suggestion

Topic:

Injury Prevention

What safety policies can we put into place to lessen the number of injuries in 2019?

Winner(s):

Anonymous

- Better accident investigation to find root cause of the incident. Document near misses.
- Take note of what was happening and what the IW was doing 5 minutes prior to the incident. This would give Olympic a feel for what we can do better or change to avoid similar injuries from occurring.
- Educate crew after finishing investigation.
