Date: April 15, 2019		EMAIL YOUR SIGN-IN SHEET IN TO THE OFFICE AFTER THE MEETING	
Project Number#	Job Name:	Person Conducting Meeting:	

Competent Person

OSHA states that our jobsites are required to have a "Competent Person" to monitor safety.

What is a **Competent Person**?

It is a person appointed by the company who has been trained to recognize hazards and has the authority to eliminate the hazard.

Olympic has trained and appointed our foremen as our "Competent Person" on our jobsites.

They have been trained in OSHA 10, scaffold, aerial lifts, CPR, basic first-aid, etc.

If you come across a problem that may cause injury to you or others on the jobsite, please notify your Foreman, Olympics "Competent Person" to omit the hazard.

Last week's Bonus Question: **If I am unclear on how to safely do my job, what am I suppose to do?**

Answer: **If you are uncertain on how to put our work into place safely, contact your Foreman.**

Inspect your equipment (*scaffold, aerial lifts, ladders, fall protection, electrical cords, etc., etc..*) prior to the start of each work shift.

For **inspection packets or repair tags** call **Dave Sangren @ (612) 644-3136** to have some delivered to your jobsite.

Any questions give Sturg a call (612) 221-8603

PLEASE PRINT YOUR NAME

(Foreman review sheet, verify crew members names are legible)

Comments:

Record to beat 378 days!!!

As of April 11, 2019 we have worked 26 days without a Lost Time Injury.

We have safely worked 34,228 hours towards our ATV goal of 150,000 hours!

Toolbox Talks winner for last week: **Travis Derosier @ Thrivent, Scot Kush @ Brooks Ave CO-OP, Scott Fieber @ Dayton's & Dave Hedtke @ Restoration Hardware.**

This week's Bonus Question: **What were the safety issues in the 4 photos on this weeks T-B-T?**

Hint: **See backside of Tool Box Talk**

"Building a Safer Place to Work" one week at a time.

Competent Person: One who is capable of identifying existing and predictable hazards in the surroundings, or working conditions which are unsanitary, hazardous, or dangerous to employees, and who has the "authorization" to take prompt corrective measures to eliminate them.

Are you a Competent Person?

What hazards do you see in the photos below?
