

Date: May 11, 2020		EMAIL THIS SHEET IN TO THE OFFICE AFTER YOUR MEETING!!!	
Project Number#	Job Name:	Person Conducting Meeting:	

Signage

It is our responsibility to warn our employees along with the employees of other contractors on site when we will be creating hazards in our work areas. For example: the use of HILTI tools and lasers, working above others, spraying fireproofing material, and erecting/dismantling scaffolding. We need to place the proper signage required near the area where our crews are performing that activity.

Last week's Bonus Question: Where do we keep "RED TAGS" to label our damaged equipment?

Answer: The winners stated that "RED TAGS" used to label damaged tools that have been taken out of service, are in the gangbox and foreman's office.

Inspect your equipment (scaffold, aerial lifts, ladders, fall protection, electrical cords, etc., etc..) prior to the start of each work shift.

For inspection packets, repair tags or signage please call **Dave Sangren @ (612) 644-3136** to have some delivered to your jobsite.

Any questions give Sturg a call (612) 221-8603

PLEASE PRINT YOUR NAME

(Foreman review sheet, verify crew members names are legible)

Record to beat 378 days!!!

As of May 7, 2020 we have worked 212 days without a Lost Time Injury.

We have safely worked 20,456 hours towards our next ATV goal of 150,000 hours!

Toolbox Talks winner for last week: **Nate Taylor & Eric Morgan @ Dayton's, Hohsie Yazz @ 240 Park Ave, Oscar Mazoleny & Cory Thompson @ ODIN Apts.**

This week's Bonus Question: **If your temperature exceeds 100.4 degrees, what should you do?**

Hint: **See Foreman**

"Building a Safer Place to Work" one week at a time.

Safety Signage Order Form

Foreman: _____ Jobsite: _____

of signs needed
