## Happy New Year & Welcome to 2021

Here at Olympic Companies your safety is our number one priority. It's our goal and it should be your goal, to go home at the end of each day in good health to enjoy time with family and friends.

To help us achieve this goal, we will continually supply you with information regarding the latest and greatest safety policies and procedures. This will be accomplished through toolbox talks, handouts that you will receive in your payroll envelope, our Annual Safety Training Booklet and when this darn virus goes away we can get back on track with some evening classes.

**Last week's Bonus Question:** What did I have to change in my work area to make it safer today?

**Answer:** Answers varied. "Had to move another trades material before I could do my job, threw some sand on the walkway into the building, asked the foreman for some cleaning supplies for our break area..."

Inspect your equipment (*scaffold, aerial lifts, ladders, fall protection, electrical cords, etc., etc..*) prior to the start of each work shift.

For inspection packets or repair tags call Dave Sangren @ (612) 644-3136 to have some delivered to your jobsite.  
**Please call Dave if your jobsite is in need of hand sanitizer, bleach cleaner, masks, etc.**

Any questions give Sturg a call (612) 221-8603
