

Date: January 25, 2021	SUBMIT THIS SHEET IN TO THE OFFICE AFTER YOUR MEETING!!!	
Project Number#	Job Name:	Person Conducting Meeting:

Competent Person

OSHA states that our jobsites are required to have a "Competent Person" to monitor safety.

What is a **Competent Person**?

It is a person appointed by the company who has been trained to recognize hazards and has the authority to eliminate the hazard.

Olympic has trained and appointed our foremen as our "Competent Person" on our jobsites.

They have been trained in OSHA 10, scaffold, aerial lifts, CPR, first-aid, etc.

If you come across a safety hazard that may cause injury to you or others on the jobsite, please notify your Foreman. They will get the hazard abated.

Last week's Bonus Question: How many first aid kits do we have on this jobsite?
How many of them need refill kits?

Answer: The answers varied due to the size of the project people were working at.

I spoke to Dave Sangren, Warehouse Manager, and he stated we sent out a few new first aid kits and eye wash bottles to our projects.

Inspect your equipment (*scaffold, aerial lifts, ladders, fall protection, electrical cords, etc., etc.*) prior to the start of each work shift.

For inspection packets, repair tags or **SAND** call Dave Sangren @ (612) 644-3136 to have some delivered to your jobsite.

Please call Dave if your jobsite is in need of COVID supplies: hand sanitizer, bleach cleaner, masks, etc.

Any questions give Sturg a call (612) 221-8603

PLEASE PRINT YOUR NAME

(Foreman review sheet, verify crew members names are legible)

Visit our website: www.olympiccompanies.com

Comments:

As of January 21, 2021 we have worked 15 days without a Lost Time Injury.
We have safely worked 18,708 hours towards our new ATV goal of 150,000 hours!

Toolbox Talks winner for last week:

Mike Dornfeld @ The Larking, Gavin Asplin @ Essentia Hospital, Oscar Mazoleny @ 270 Henn

This week's Bonus Question: **What were the 4 hazards shown on the toolbox talk sheet this week?**

Hint: **See Foreman**

“Competent Person”

One who is capable of identifying existing and predictable hazards in the surroundings, or working conditions which are unsanitary, hazardous, or dangerous to employees, and who has the “authorization” to take prompt corrective measures to eliminate them.

Are you a Competent Person?

What hazards do you see in the photos below?
