Jobsite Inspection

Foreman, please have one of your crew members take the inspection sheet and walk our work area. Please have them look for any safety/health hazards that we may be exposed to. At break time, review the findings with your crew and come up with a way to abate any hazards. If a hazard has to do with the GC or another trade, request they remove the hazard to ensure no one on the jobsite is injured.

Please return both the sign-in sheet and the Jobsite Inspection sheet after lunch break.

Last week's Bonus Question: What were the 4 hazards shown on the toolbox talk sheet this week?

Answer: Hole from forklift in side of aluminum plank
 No Sweeping Compound
 Standing on top step of ladder
 Chemical not properly labeled (hard hat not being worn)

Inspect your equipment (*scaffold, aerial lifts, ladders, fall protection, electrical cords, etc., etc.*) prior to the start of each work shift.

For inspection packets, repair tags or **SAND** call Dave Sangren @ (612) 644-3136 to have some delivered to your jobsite.

Please call Dave if your jobsite is in need of COVID supplies: hand sanitizer, bleach cleaner, masks, etc.

Any questions give Sturg a call (612) 221-8603

PLEASE PRINT YOUR NAME

(Foreman review sheet, verify crew members names are legible)
