Project Number#:	Job Name:	Person Conducting Meeting:	

Mold

We are entering a season where mold can become an issue on our projects, so we need to take corrective actions to prevent this. Try to stock materials without allowing water to get on to our materials and if possible, stock materials away from side walls where windows are not yet in place. When we do need to stock material, have it placed on dunnage off the floor and/or covered with poly. If you have any questions and/or concerns regarding MOLD, please review our MOLD Policy in the Foreman's Jobsite Manual. Foreman can contact their PM and/or Field Superintendent for additional information.

Last week's Bonus Question: What can we do on this project to get ready for winter?

Answer: Store materials inside away from interior walls, make sure excess poly is tucked, ensure we have sand/salt for slippery walkways, allow ample time to arrive at work safely, etc.

For **inspection packets or repair tags** call **Dave Sangren @ (612) 644-3136** to have some delivered to your jobsite.

Please call Dave if your jobsite is in need of hand sanitizer, bleach cleaner, masks, etc.

Any questions give Sturg a call (612) 221-8603

PLEASE PRINT YOUR NAME!!!

Comments:

As of November 11, 2021 we have worked 34 days without a Lost Time Injury.
We have safely worked 54,301 hours towards our ATV goal of 150,000 hours!

Toolbox Talks winner for last week: **Jesus Espinoza @ Aster House,**
Hunter Sanders & Gaspar Chavez @ Essentia

This week's Bonus Question: How do we recognize MOLD?

Hint: See handout

IMPORTANT PAYROLL INSERT WAS MAILED HOME THIS PAST WEEK!!

"Building a Safer Place to Work" one week at a time.
