Self-Assess

This past week we had a large amount of COVID-19 cases reported to the office. When we gathered their information, many stated that they'd been sick for a few days before it got bad enough to be unable to work. When we wait that long to notify our Foreman, there's a greater possibility of getting someone else sick. You know your health the best. If you are not feeling well, **DO NOT COME TO WORK**, call your foreman who will forward you to Mike Sturgeski to discuss your next step. COVID symptoms can vary from a runny nose to being so sick you are unable to get out of bed. ALSO, if you have a family member that is very sick, please get them in to be tested. You coming to work after being exposed carries the virus to our projects.

Thank you to all of you that have sent in their Vaccination Cards & Booster Cards. If anyone has *not* submitted their cards to Lindsey, please do so today - lharfield@olympiccompanies.com

Last week's Bonus Question: What is my Foreman's name and cell phone number?

Answer: Answers varied from jobsite to jobsite.

Inspect your equipment (*scaffold, aerial lifts, ladders, fall protection, electrical cords, etc., etc..*) prior to the start of each work shift.

For **inspection packets or repair tags** call Dave Sangren @ (612) 644-3136 to have some delivered to your jobsite.

Please call Dave if your jobsite is in need of hand sanitizer, bleach cleaner, masks, etc.

Any questions give Sturg a call (612) 221-8603

PLEASE PRINT YOUR NAME

(Foreman review sheet, verify crew members names are legible)

Comments:

As of January 6, 2022 we have worked 3 days without a Lost Time Injury.

We have safely worked 6,603 hours towards our new ATV goal of 150,000 hours!

We had a carpenter injure himself while working overhead this past week.

We wish him a speedy recovery.

Toolbox Talks winner for last week: **Miguel Leal & Juan Carlos Martin @ Legacy Commons, Travis Blower @ Aster House & Mark Cleverly @ Schneidermann's**

This week's Bonus Question:
